Made Her Lover Look Like a Pig. In the course of his article in the November American Magazine, in which he deals with the remarkable cures offeeted by four great medical experts through the means of hypnotism. Mr H. Addington Bruce describes some of the interesting cases that have come before their attention, notably the following which was successfully treated by Dr. Pierre Janet, the noted Parisian

'In another case that gave him far more trouble, the patient suffered from a persistent halfucination of seeing a man in the room with her. Her relatives believed that she was insane, and wished to place her in an asylum, as she occasionally manifested suicidal tendencies. But. Dr. Janet diagnosed her case as one of hysteria, and with the aid of hypnotism made the interesting discovery that the hallucinatory image
